OFFICIAL COMMUNICATIONS.

The following communication was presented from his Honor, the Mayor, and the same was received and ordered filed:

Jan. 15, 1909.

To the Honorable Board of Aldermen of Jersey City:

Honored Sirs: Your honorable body is no doubt aware of the agitation which has from time to time obtained in connection with the soft coal smoke nuisance. The dense clouds of soot laden smoke which arise from the smoke stacks of soft coal burning locomotives, from the power houses of the Public Service Corporation and others is such as to not only seriously inconvenience our residents in their homes, but is destructive to property and in the opinion of medical authorities, a menace to health.

Many letters of protest have been received, indignation meetings have been held and this administration has pledged itself to do all in its power to correct the existing conditions. Recognizing as it does that the interests of the people and the great industries within our city are largely co-ordinate, it is not the policy of the administration to fetter these industries with unduly harsh or unfair restrictions but the evil referred to has existed for so many years that it is time some relief was obtained. Frequent requests have been made of the principal offenders for relief, promises have been obtained but conditions remain unchanged.

I enclose herewith two ordinances the enactment and enforcement of which will, it is believed, give the desired relief, and I therefore ask your honorable body to give them due consideration to the end that they may be placed among the laws of our city.

Very truly,

H. O. WITTPENN,

Mayor.
